

RESPECT SORT ACTIVITY

The purpose of this activity is to raise awareness of the topic of respect, its different aspects (the five headings) & that our sense of respect is unique to each individual.

- These headings will need to be printed for each group involved in the activity.
- The files that contain the items for sorting into these categories are all named as files for cutting.
- After they are cut into individual pieces some from each group need to be spread through as many sets as you are creating.
- It is helpful to store each set in a separate envelope.
- The invitation for this activity is to form groups, take an envelope & sort its contents under the five headings that are also included in the envelope
- There are no right or wrong answers in this activity. Everyone's opinion is valid.
